### **UNRAVEL: Fiber Art for Our Times**

An exhibit of fiber arts of all kinds, featuring artists whose work sheds light on tangled issues of our contemporary times. From pink hats for marches to quilts for social justice, fiber arts have moved out of the home to become an impactful vehicle for conversation and dialogue.

Exhibit juried by Virginia B. Johnson of Gather Here in Cambridge.

Enter into the practice of being present, sensing, seeing, and bearing witness with art.

Take time to pause, be in silence with others. A time of shared reflections follows.

All are welcome
